

Extended Report

The electronic and/or printed booklet and this report are prepared for general use throughout the United States. Our legal counsel has advised us that all questions comply with existing Federal employment laws including the American's With Disabilities Act. However, various laws and related statues and interpretations of them change frequently. For this reason, neither Advanced Psychometrics Incorporated nor its counsel assume responsibility for any questions included in the electronic and/or printed booklet which may violate local, state, and/or Federal laws. Users should consult their counsel about any legal concerns they may have with respect to use of these results. These results should not be construed as a recommendation to hire/not hire this individual in a preemployment situation. The administrator must check previous work records, job skills required, current status, and personal references. Where safety of other workers or the public is of concern, a drug test should be administered, criminal background checks obtained, and a physical should be administered by a qualified physician. The scoring mechanism utilized to produce this report does not measure political opinions or whether an individual has a tendency to commit violent acts, has any type of psychotic condition, or is sexually deviant, and can not be used for purposes of identifying political views or predicting these types of behaviors/conditions.
